File 1 Caribbean school life

A Jamaican school, p. 17

Joshua Dennis: Hello, my name is Joshua Dennis and I attend Sir Cliff Campbell school and I come from Jamaica, which is right here in the in the Caribbean, and I would like to invite you to see our school.

Dinera Taylor: So hi, my name is Dinera Taylor and I'm here to show you where we practise after school such as cricket and football. But here today at the schoolyard we're practising football for our upcoming match this Friday.

Leanna's school life in Jamaica, p. 19

Leanna (student): My name is Leanna Mitchell and I'm twelve years old. I attend the Content Primary and Infants' School. I wake up at 6:30 to get ready to go to school and reach here at 8 o'clock.

Khalia (presenter): Like many others who go school in the Jamaican countryside, walking a mile or two to school is normal.

Leanna: My favourite subject is mathematics. When I look at my teacher, teaching what we need in life, I just feel like I want to teach other students as well.

Khalia: This small school in the mountain has transformed the lives of many children.

Miss Alkins' steel pan club, p. 22

Miss Alkins: Hi, I'm Miss Alkins, the music teacher, here at Queen's college school. Now, I know there are all sorts of different clubs for you to choose from; arts clubs, sports clubs, science clubs, but I am here to persuade you to join MY club! Do you enjoy playing music? Are you interested in being part of a band? Are you keen on performing in front of spectators? If the answer is yes, you MUST join Steel Pan Band! In the club, I teach you to play the steel drum, a typical Caribbean instrument. We practice melodies together and we perform at school events and town carnivals. Steel pan band is on Mondays and Thursdays after school, from 4 to 6, in the music room. Come and join the club, people love hearing our music, so it's great fun!

Reef Guardians in Grenada, p. 23

We love the sea. It is home to beautiful coral reefs, colorful fishes and fascinating animals. As reef guardians we play our part in keeping our marine environment and marine protected areas clean. We practice the three Rs: Reduce, Reuse, Recycle.

This is who we are!

Test your skills, p. 27

Alex: There are lots of sports and activities here that you can't do in other places. Obviously, life in the Caribbean means that it's easy to go scuba diving or sailing, go snorkelling or paddle boarding. And living in a place with hot weather means that it's great to be in the water! I love swimming, and I like dancing too, so my favourite activity is synchronized swimming. I'm in a club and we participate in different championships on different Caribbean islands and also in the United States. I practice five days a week after school with my team. It's hard work and it's tiring, but it's amazing too. We don't always win, but we are pretty good, and I hope to be a champion one day!

Évaluation de la compréhension de l'oral – Guide pédagogique

Steven Scott: I'm Steven Scott, I'm the principal here at the Leonard's boys' school and I just want to say that we're looking forward to having as many boys as we can here at the school. We're unique in that we're the only boys' secondary school in Barbados. We do engage in a lot of sports and that area is an area of niche for us we have excelled in football, in cricket, in basketball, in hockey, in volleyball, and in all any area that you can think of in terms of sports... athletics...our school has excelled in and continue to do that.

Tara Eiffel: Hi, my name is Tara Eiffel and I'm a member of the Saint Leonard's Boys School. I do student council, choir and steel pan and we've only done a couple performances in steel pan but it is very fun. And I love this school and I love taking part in the different activities.
