Fester is Gomez's brother. Grandmama is Gomez's mom. Lurch is the butler¹.

Sometimes the Addams family does act like² other people. For example, they have a pet³. His name is Kitty. But Kitty is a lion!

My beautiful red, yellow and green curtains!

My cosy bed.

My small desk, my chair, and a pretty lamp.

My colourful rug on the floor.

I love this stained-glass window¹ with a spiderweb design!

The old phonograph on my desk.

My bed, between my comfortable armchair and the window.

The Addams family's manor

If you go to 0001 Cemetery Lane, you're likely¹ to find a family that is creepy, kooky², and altogether spooky.

In my opinion, the best room of the house is the living room. The living room is the place where Morticia can sit in her favorite chair and knit³, and Thing can readily answer the phone.

The children's rooms are actually relatively normal. Well, except for the vultures⁴ on Pugsley's door...
